UNIVERSITÀ DEGLI STUDI DELL'AQUILA  
Amministrazione centrale  
Area Ricerca e Trasferimento Tecnologico  
Settore Dottorati, Assegni e Borse di Ricerca

the scheme available below, or downloading the concerned form if it is available on the website of the home University.

The applicant must read carefully the list of documents required for the Ph.D. course chosen, in order to speed up the procedure.

**In this section you must upload the documents requested for the recognition of the foreign academic degree (art. 2 of the selection announcement - Admission of applicants with foreign (non-Italian) qualifications).** The files must be in pdf format and readable. For each file a brief description is needed.

Now, the candidate who has completed the application must return to the "Dashboard" and perform "Verify"

If the system detects errors it is necessary to edit the application and proceed with "Verify" again.

After completing this section applicants will be redirected to the dashboard where they can see the draft of their application form.

By pressing the bottom "Sign and submit" the process is finalised. By clicking on "Sign" bottom the process is finalised and the PDF file of application is generated.

**The application must be signed. The absence of the signature, or the typed signature, implicates the exclusion from public competition.**

There are 3 methodologies to sign it and the candidate must select one of them and read carefully they directions.

According to article 3 of the call the possible methodologies are the following:

- By digital signature using smart card, USB token or remote signature which allow the owner to sign general documents by means of a signature software or a Remote Signature web portal made available by the Auditor. Those who have a Digital Signature smart card or USB token shall verify that they are compatible with the Digital Signature system integrated in the system server. If so, the owner may sign the application directly in the system server (e.g. ConFirma);

- Those who do not have compatible digital signature devices and the Remote Digital Signature Owners who may access a web portal for signing general documents shall save in their own PC the .pdf file generated by the system and, without modifying it, digitally sign it in CAdES format. A .p7m file will be generated, which shall be saved and uploaded again in the system. Any editing to the file before signing with the Digital Signature shall interfere with the automatic check of correspondence between the content of such a document and the original, and this will bring to the application exclusion;

- If none of the above-mentioned options can be used candidates shall save in their own PC the .pdf file generated by the system and, without modifying it, print and sign it with full original signature in the last page of the printed document (**Applications with typed signatures will not be accepted**). A scanned .pdf copy of such a document shall be produced and the file thus obtained shall be uploaded to the system.

Amministrazione centrale  
Area Ricerca e Trasferimento Tecnologico  
Settore Dottorati, Assegni e Borse di Ricerca

In case the access to the platform is via SPID, it is not necessary to sign the application with one of the afore-mentioned methods.

In case the applicant decides to hand sign the PDF file he/she must verify that the file that is going to be uploaded is complete because the system accepts only one PDF file.

After the submission applicants will receive an email with the confirmation of the submission. Applicants will always be able to login to their account, personal data and application form.

### 3. REFERENCE LETTERS

The applicant must indicate the names and addresses of two referees. The applicant must write on the form the official email address of the referee. **A private email address is not allowed.**

The referee will be informed of the candidate's requirement and receive a reference letter form that he/she must submit by **March 11, 2026, at 1 o'clock p.m. CEST.**

We advise applicants to inform referees that they will receive the request. When the referee fills in the letter and submits it, the applicant will receive an email specifying that the letter has been upload. Applicants, however, can always check the status of the request. Reference letters uploaded by applicants or sent by the referent directly to the university, will not be taken into consideration. If applicants wish to change the referee they must contact support via the link at the bottom of the page <https://pica.cineca.it/univaq>.

### 4. APPLICATION FORM MODIFICATION OR WITHDRAWAL

Modifications of the application form after the pdf has been created are possible:

- If they have submitted the application form and received the email of confirmation applicants cannot modify the application form but they will be able to withdraw it following the relevant procedure available on the dashboard and submit a new application form.
- If they have created the pdf file but they have not completed the submission (the pdf file has not been uploaded yet and so they haven't received the email of confirmation) then they must contact support via the link at the bottom of the page <https://pica.cineca.it/univaq> and ask to have the application re-opened. In the email they must specify the reason of their request, the ID of their application form and attach copy of their identity document.
